NEWS AND COMMENT.

The Monongahela River Consolidated Coal and Coke company, which is the legal name of the Ohio river coal trust, has just made a sale of 5,000,000 bushels, or 300,000 tons, to be delivered at New Orleans for export. The transaction is said to include the sale of two hundred coal barges of a carrying capacity of one thousand tons each, which indicates that the coal under contract is to be delivered at one rise of water.

In a speech at the Republican club dinner in New York Tuesday evening Whitelaw Reid discussed a protectorate for Cuba—the local government under its own control, but its foreign relations, and perhaps its customs, under ours. As to annexation, he feared it would be followed by a demand for statehood, which would work the ruin of our continental republic.

An electric railroad is likely to be constructed between Frankfort and Lawrenceburg, Ky. Surveyor A. C. Parker has completed a survey of the proposed route, together with an estimate of the cost. CAIRO'S BLAZE

Fire This Morning Destroyed a Block of Business Houses in the Egyptian City.

LOSS UPWARDS OF \$100,000

Among the Destroyed Property was the Plant of the Long Established Cairo Bulletin.

ORIGIN OF THE FIRE EXPLAINED

There was a very disastrous fire in Cairo this morning early. The scene was a block on the Levee front, in which were located many large business houses. The details of the fire are not at hand, but it is known that the loss was very heavy and the insurance large.

The fire started just after midnight and in spite of good fighting spread gradually, until it had almost spent itself.

The block well destroyed contained among other houses the following: Lewis & Co., commission merchants; Candee & Son, insurance agents; John A. Haynes, boat store; Wm. Loneragan, commission merchant; N. Goldsmith, hides and furs; P. A. Conant, produce; the Daily Bulletin, newspaper and job office, and many others. These sustained total losses. The wholesale grocery of Wood & Bennett was severely damaged by water. The aggregate loss will be between \$75,000 and \$100,000, with \$60,000 insurance.

It has been a long time since Cairo has had such another fire and it is feared it will be quite a set back to the place. The block burned, however, was an old one and when rebuilt will be a great improvement. The origin of the fire was in the basement of Lewis & Co's commission house, where a gas stove was used to ripen bananas. It was well under way when discovered.

COMPLETE VICTORY

THE INSURANCE COMPANY FINALLY CLOSES OUT

In the Puryear Case. Petition for a Re-hearing awarded in the Court of Appeals.—Other McCracken Cases.

The court of appeals at Frankfort, Ky., yesterday overruled the petition for a new hearing in the case of Mrs. Ella Puryear, of the city, against the Provident Savings Life association, thus finally ending this well known suit.

The action was to recover \$10,000 insurance on the life of the late Col. T. H. Puryear, which the company refused to pay on account of the provisions of its insurance clause.

Mrs. Puryear won the suit in the lower court, it was affirmed by the court of appeals, and a motion for a re-hearing by the company's attorneys was overruled yesterday, settling the case once for all.

The court of appeals also decided another case from McCracken. It reversed the case of Mrs. M. Mayes against S. T. Payne, Sr., for a home-stead in property on West Madison.

The motion to affirm in the case of Boss Ledinger against the Paducah Railway and Light plant was overruled. A verdict was rendered for \$200 and the case was taken to the court of appeals, when Ledinger's attorneys moved to affirm on account of the other side having allowed the time to expire.

NEW TRIAL REFUSED.

THE DEERING HARVESTING COMPANY ASKS AND IS GRANTED AN APPEAL

Judge Hushands, in circuit court this morning, overruled the motion for a new trial in the case of the Deering Harvesting company against Ferguson, Palmer & Co., for \$20,000 damages for alleged breach of contract.

The jury, it will be recalled, rendered a verdict in favor of the defendant, and the plaintiffs asked for a new trial, which is now refused.

An appeal was prayed and granted.

KING EDWARD

To-day Opened the British Parliament Making a Speech From the Throne.

A SPECTACULAR SIGHT

Wealthy New York Doctor Assaulted and Robbed in El Paso, Texas, Last Night.

WAS FOUND IN DYING CONDITION

London, Feb. 14.—King Edward VII. opened parliament today, making his first speech from the throne. He went to the house of parliament preceded by a spectacular procession and amidst a throng of people who evinced much enthusiasm.

The king's first parliament was opened at 2 p. m.

Contrary to the usual custom, which indicates the king is to inaugurate various changes, there was no forecast of the king's address, so there was more than the usual interest in what he might have to say.

The speech was somewhat personal, but otherwise touched upon state affairs without any indication of new departures.

El Paso, Texas, Feb. 14.—Dr. Henry Meyers, a wealthy New York physician, was assaulted, drugged and left dying by footpads, last night, after being robbed of a thousand dollars. There is no clue as to his assailants.

BLOOD POISON

NIGHT WATCHMAN MENSEN OF THE FERGUSON PALMER MILL

A Victim—A Small Pimple Caused His Death—Remains Taken to Dawson for Interment.

Mr. Wm. Mensen, night watchman at the Ferguson-Palmer mill in Meigs county, died this morning at his home, 1701 South Fifth street, from blood poisoning, aged 32.

About two weeks ago a small pimple appeared on the side of his neck, and he picked it with a needle. That night he became overheated while at work, and the following day was ill. Blood poisoning developed rapidly, and when Dr. Coyle was called the malady had made such progress it was impossible to save the patient.

The deceased formerly lived at Dawson, and leaves a wife and one child, and a brother and half brother, the latter being in business at Dawson.

The remains were shipped to Dawson at noon today for burial.

PRESBYTERIAN CREED.

Washington, Feb. 14.—The Presbyterian committee, appointed to consider the revision of the Westminster confession of faith, resumed its deliberations today. The examination of the reports of the presbyteries upon this question at the meeting of the committee held here last December disclosed the fact that a majority of the presbyteries desired some change from the creed. At this convention the committee will formulate a statement making recommendations upon the revision to the general assembly, which convenes in Philadelphia next May. This statement will contain the views of the committee, based upon the reports of the presbyteries.

Mrs. T. M. Nance returned this afternoon from a visit to Pottsville, Graves county.

IN ASHES

JAS. POWELL FOUND HIS HOME IN ASHES THIS MORNING.

He Went to Church and a Spark Did the Rest.—The Loss Was Quite Heavy.

Jas. Powell, residing near Hazlewood, Ballard county, was burning a plant bed last evening a short distance from his barn.

He and his wife went to church and did not return home until early this morning. They found the farm and outbuildings in ashes. The barn, with horses, mules and cattle and all the farming implements were destroyed, all the couple having been out being the clothing they wore.

It is supposed a spark from the plant bed caused the conflagration. The loss is several thousand dollars.

ARMY OF 100,000 MEN.

Washington, Feb. 14.—According to the present plans of the war department the army is to be reorganized to its full authorized strength of 100,000 men. The regular army consists of about 67,000 men, including the troops in the Philippines, so that the new enlistments are limited to about 33,000 men.

POLICE COURT NOTICE OF SALE

A FIGHT WAS INVESTIGATED AND LEFT OVER UNTIL SATURDAY.

Breach of the Peace Cases and Pain Drunk on To-day's Docket.

Louis Jones, colored, was arrested last night by Officers Potter and Goureaux for engaging in a fight with Nealand Whitfield, near Ninth and Boyd, and cutting him with a razor. He retaliated by swearing out a warrant against Whitfield and Minnie Bishop for immorality.

The evidence was partially heard this morning. Whitfield claimed that Jones assaulted him with a razor and cut him on the ear and slit his coat in several places, and Jones swore that he had neither knife nor razor, but that Whitfield first assaulted him with a pair of brass knuckles and a shovel.

The case was continued until Saturday to get two women who were present.

Dale Clefford, a female, was fined \$5 and costs for using insulting language.

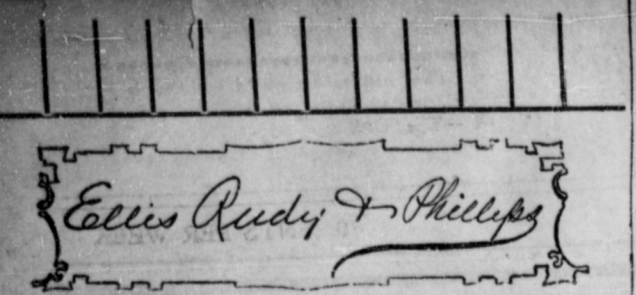

The case against Lee Murray, for a breach of the peace, was again continued.

John Davis, a stranger, was fined \$1 and costs for drunkenness. He claimed he was unfit for work and was told a doctor would examine him, and if found so he would be released.

The Jefferson, Jackson and Lincoln League of Columbus, O., celebrated Lincoln day with a dollar dinner last Tuesday night. The feature was a speech by W. J. Bryan, whose appearance evoked enthusiasm.

THURSDAY, FEB. 14, 1901.

If, as it is claimed, wireless telegraphy has been utilized for the distance of 300 miles it looks like the days of overhead wires and unsightly telegraph poles are numbered. So may it prove.

Mr. Bryan has launched his candidacy for the nomination in 1904. When it comes to launching Mr. Bryan is a splendid craftsman. His ships, however, seem to have the unhappy faculty of never sailing well on the political seas.

The aggregate amount of money appropriated by congress for pensions since the end of the civil war in 1865, plus the amount carried by the pension bill for the fiscal year 1903, is \$2,921,174,426. Another year will carry the total far beyond the three-billion mark.

Kansas has refused to reenact capital punishment, repealed some years since. As a Kansas mob lately burned a man at the stake and Mrs. Nation has been enabled to destroy much property which no law protects, it was thought by the outside world that these overrights would be remedied, but it seems too much was expected of the Kansas legislature. A state with no laws but that of mob force would seem to be a good one for the emigrant to avoid, and this will no doubt be the case.

These facts about the abundance of money should cheer even the man who is financially embarrassed. The total amount in circulation in this country February 1 was \$2,190,780, 213, more than two and a half times what it was at the time of the resumption of specie payments. The per capita circulation was \$25.38, far the largest in our history. The volume of gold coin was over six times what it was at the date of resumption, and over ten times as many standard silver dollars are in circulation as then were. Silver coinage, could it accomplish what its most sanguine friends contend, could not possibly improve this showing.

OUR MILITARY FORCE.
The adjutant general of the several states report annually to the adjutant general of the United States, as required by law, the strength of the organized militia and the number of men who, though unorganized, are available for military duty. These returns form always one of the most interesting documents of the year.

The aggregate force of the various national guards throughout the union is now considerably larger than the regular army provided for by the present army reorganization bill. The total reported by Gen. Corbin to Secretary Root is 113,967, including 8,246 officers of all ranks.

While some of these state estimates are obviously conservative, the aggregate of all the states and territories is probably approximately correct. It is a stupendous and impressive total. This country could put into the field nearly ten millions and a half of fighting men if the flag needed the services of so many Americans under arms at the same time.

VOTE SELLERS AND VOTE WITHHOLDERS.
A judge in Crawfordsville, Ind., recently disfranchised fifty voters who were found guilty of selling their votes at the recent election.

The judge based his decision upon the fact that it is a fundamental principle of law that an agent who has betrayed his trust can be removed and the power invested in him revoked.

The judge claims that the voter is simply the agent of the government, for the purpose of carrying into effect its principles, and that the moment that he offers to sell the privilege invested in him he becomes false to his trust and an enemy to his country.

The judge's position, from the standpoint of common honesty, is eminently correct, and the only fault that can be found with the penalty is that it was not sufficiently severe.

But what of the men who, not selling their vote, want even exercise their prerogative and vote. The "stay at home" class is here referred to. Are they not just as dishonest to the question of invested right and just as harmful to the country and its patriots who do vote, even those who vote for a price?

There is some difference between selling a vote and hogishly withholding one, but the offense of both is very much alike in effect without doubt.

IS HE DEAD?
AT CADIZ TODAY A SENSATIONAL DAMAGE SUIT COMES UP.

The damage suit for \$5,000 brought by Robert Merrick against Deputy Sheriff Wylie Jones and W. F. Dadds and Mrs. Charles J. Pollard and Wade Jefferson will come up at Cadiz, in the Trigg county circuit court, today. Hons. Fenton Sims and J. E. Kelly are attorneys for plaintiff, while Hon. Ward Headley and Col. Robert Burnett are counsel for the defense.

It will be remembered that Frank Merrick, the forger, son of the plaintiff, was arrested at Princeton for forgery and was dangerously ill, or feigned illness, and although the above named doctors advised that he was in a condition to be moved, the officers left him at his father's house. In a day or so he is reported to have died, and the suit is to satisfy the old man's feelings. There will no doubt be sensational developments, and it is hinted that the defense will prove that Frank Merrick never died.

NEW METALLIC COFFIN.
CLAIMED TO PRESERVE THE DEAD FOR A THOUSAND YEARS.

A burial casket, the manufacturers of which assert will revolutionize modern funeral methods to a large degree, has made its appearance in St. Louis. In general appearance it looks like the ordinary metallic casket. Otherwise it is vastly different. It is made of a sheet composition of lead and steel, being very light and wonderfully durable, weighing only 70 pounds. The representative of a large eastern concern makes the startling assertion that the casket will preserve bodies for practically all time. He says:

"By scientific tests we know this casket will remain intact several thousand years, even surpassing the burial methods of the Egyptians, who were past masters of the art of preserving the dead. It is a germ proof, and costs 50 per cent less than the old style metallic casket."

Local undertakers have examined the casket. If it does half what it is claimed for it, they say, the old-style, high-priced metallic burial casket will soon become a thing of the past.

Wilkesbarre, Pa., comes forward with a man who deliberately whipped his wife, whom he had only possessed two weeks, in order that she might have grounds for divorce. The beat is quoted as saying that married life "is not what it is cracked up to be." Now the husband is indignant because instead of suing for divorce the wife has had him arrested.

No more striking example of the extent to which liberality of opinion in religious and social matters advanced in England during the reign of Victoria could be furnished than the fact that three Jews, by race and religious profession, signed the proclamation of the accession of King Edward. One signed as member of the privy council and two as aldermen of the city of London. When Queen Victoria ascended the throne Jews were not only barred from society, but were denied any kind of civic rights, and even after the election of one of them to parliament in the forties, it was a year before he was allowed to take his seat.

SORROW AND SONG.
Sorrow and song
And we worry along.
Faith that is faltering—faith that is strong;
Mists in the skies
And in beautiful eyes;
But songs—dear, are sweeter—are sweeter for sighs!

Sorrow and song
In the fast fleeting throng.
The night is oft starless—the dim way is long;
But beyond there is light
Where God's morning dawns bright;
Good night, then, to sorrow—good night and good night!
—Frank L. Stanton.

IN THE AIR.
THE GERMS OF LA GRIPE ARE CONVEYED THROUGH THE ATMOSPHERE.

No one can escape the la gripe germ because when an epidemic of the disease is prevailing the air is laden with it.

The reason every one does not have the disease at the same time is because the persons who are enjoying perfect health are able to successfully resist and throw off the infection, while those who for any reason are not in the best of health fall ready victims. The first symptoms are those of acute catarrh, resembling a hard cold, and if prompt treatment is applied at this time, it can easily be broken up; one of the best remedies at this stage is Stuart's Catarrh Tablets, taken freely, say one tablet every hour or two for two or three days, the danger of pneumonia and serious complications will be averted.

The Rev. L. E. Palmer, Baptist clergyman of Ceresco, Mich., makes a statement of interest to all catarrh and grip sufferers. He says: "Stuart's Catarrh Tablets have certainly been a blessing to me. I have used them freely this fall and winter and have found them a safeguard against la gripe and catarrhal troubles, from which I had suffered for years. I feel that I can freely and conscientiously recommend them."

Persons who suffer from catarrh of the head and throat are very susceptible to la gripe and such will find a pleasant, convenient and safe remedy in this new catarrh cure.

Stuart's Catarrh Tablets are composed entirely of harmless antiseptics and may be used freely as necessary as they contain no cocaine, opiate or poisonous drug of any kind.

When pain or irritation exists on any part of the body the application of BALLARD'S SNOW LINIMENT will give prompt relief. Price, 25 and 50 cents.

TO BE CONTESTED.

WESTERN UNION WILL RESIST A LICENSE TAX.

Louisville, Feb. 13.—Judge Evans has granted a temporary restraining order against the city of Lexington, Ky., enjoining this municipality from levying and collecting a license tax of \$50 per year from the Western Union Telegraph company. The case was set for final hearing next Friday morning at 10 o'clock.

The Western Union claims that the corporation is now paying a state and city tax on all of its tangible property, and that the city of Lexington has no right under the state constitution or statutes to impose any additional tax upon the telegraph company.

It is further claimed by the Western Union that it is not operating under any franchise from the state of Kentucky, but under an act of congress, which the city of Lexington has no right to interfere with.

WARMING WORK TO THE

The work of turning winter goods into money goes merrily on. We're warmed up to it; we don't stop at just profit loss; we don't shy at cost. What price will move this or that goods, that's the only question just now. Once answered down goes the price accordingly. We are sustaining losses, but we think they are wise losses, because in getting the cash out of winter goods enables us to put the money into quick selling goods for spring and thereby we expect to pick up these losses several times before another winter.

TAFT IS CHOSEN
To be Governor of the Philippines
When Civil Rule Supplants the Military.

THE CHANGE WILL OCCUR
Differences Which Have Been Rapidly increasing in Gravity Will Then be Harmonized.

TAFT'S RECORD IN PUBLIC SERVICE.
Washington, D. C., Feb. 14.—The president will appoint Judge William H. Taft to be governor of the Philippine islands as soon as the army appropriation bill, carrying the Spooner amendment, becomes a law. The military rule in the Philippines will be supplemented by civilian administration as completely as it is now established in Porto Rico and as quickly as transfers of office can be made to men already chosen and for the most part on the ground prepared to assume responsibility.

The chief immediate effect of the changes will be to subordinate Gen. MacArthur to Judge Taft and to harmonize differences which recently have been rapidly increasing in gravity. The exercise of the president's high power through a civilian rather than a military representative is expected to create a wholesome impression on all classes of natives, and here is a general conviction that this notable indication of the fixed purpose of the United States will pass another demonstration of loyalty like that which followed the amnesty proclamation last year.

The president has for some time contemplated subordinating the military to the civil jurisdiction in the islands by promoting Judge Taft, and there are reasons for believing that the action would have been taken before this time had it not been for the fear that the change would injure the effect MacArthur's nomination to be a major general before the senate.

Now that the nomination has been confirmed, however, the president has decided to wait a week or two longer until under the Spooner paragraph he can delegate to Judge Taft the full measure of authority, which will be most conducive to the rapid improvement of conditions in the Philippines.

Judge Taft is at present head of the Philippine commission, having been appointed to that place by the president on February 6, 1900. He is a son of the late Attorney General Alphonso Taft, was born in Cincinnati on September 15, 1857, and after graduating from the Woodward high school, entered Yale University, where he was graduated with the class of '78. He took up the study of law at once in connection with newspaper work for the Cincinnati Commercial.

In 1880 he was graduated from the Cincinnati Law School and began the practice of his profession. The next year he was appointed assistant prosecuting attorney for Hamilton county, serving with ability and taking on himself the main burden of work connected with the office. In 1882 he resigned to accept from President Arthur an appointment as collector of internal revenue for the first district of Ohio.

During this time, however, proved distasteful to him, and at the end of one year he resigned and resumed the practice of law.

In 1885 he was made assistant county solicitor and a few months later, when Judge Judson Harmon resigned his place on the bench of the superior court of Cincinnati to become attorney general of the United States, Governor Foraker appointed Mr. Taft to fill the unexpired term. In 1888 he was elected to succeed himself, but

before completing the five years' term President Harrison appointed him solicitor general of the United States. In 1892 he was appointed judge of the United States circuit court for the Sixth district, and on the creation of the court of appeals he was assigned to that bench. His work on the bench was vigorous and thorough, and he was held in high esteem by members of the bar.

From 1896 until his appointment on the Philippine commission he was dean and professor in the law department of the University of Cincinnati. He is a brother of Charles P. Taft, congressman from the First Ohio district, and a son-in-law of former United States District Attorney John W. Herron, whose daughter, Helen, he married in 1896. They have two children.

THE LAST 'SLAVER' DEAD.
CAPT. FOSTER, THE MAN, JUST DEAD AT MOBILE.

Says a Mobile, Ala., dispatch: Captain William Foster, commander of the last American slave vessel to make the perilous voyage to South Africa, has just died at his home near this city.

Capt. Foster was the commander of the slave ship Clotilda, that brought the last cargo of slaves to the United States. The trip was made only after many thrilling scenes, requiring weeks of skillful maneuvering and dangerous exploits. Just after the north and south engaged in the bloody war, Capt. Foster built the Clotilda, and announced that he would make a trip to the Gulf of Guinea, despite the fact that the United States war vessels had burned and sunk the ships of many who tried the voyage.

Mr. J. W. Hart, proprietor of the Hart House, was on his way to market about 5 o'clock this morning when an unknown man threw something that looked like a pistol up into his face, as he was going along near Broadway and Third, and said, "Hold on there, stop!"

Mr. Hart did not "hold on," however, nor did he stop. He kept going and was much relieved to find that the man did not follow.

The Louisville Post of yesterday says: Pilot Billy Chadwick, Louisville's encyclopedia on inland marine matters, is lying very ill at his home, 2300 Eddy street, having been laid up several days with something like pneumonia, and he needs the attention of his friends. Mr. Chadwick, in health, enjoys one of the rarest memories of any man in his profession, and his catalogue of steamboats runs clear back to the first one of any and all types. He was an old-time flatboat floater, and his record of incidents, accidents and marine history is wonderful. He is a gentleman of the old school. During the great war Billy Chadwick stood at the wheel, and went through many romances, never flickering from his duty. He is one of the few very old pilots remaining in Louisville.

CUBA'S CONSTITUTION

WAS EXPECTED TO BE REPORTED TODAY FOR ADOPTION.

Havana, Feb. 14.—The finishing touches were given yesterday to the constitution by the editing committee, who will report the corrected project to the constitutional convention today, when it will undoubtedly be adopted. At the last moment the reference to "Pernicious Foreigners" was struck out, and a clause was inserted providing for two sessions of congress, beginning in April and November, instead of one. Senors De Quesada, Tamayo, Gomez, Villendas and Silva were appointed a committee to draw up a proposition defining the relations to exist between Cuba and the United States.

SOCIAL NOTES.

The Young Ladies' Glee club met this afternoon with Mrs. James E. English.

The ladies of the synagogue promise the greatest treat of the season to be given in the next few weeks. It is to be a carnival and the plans are for something unique in that line. They will have the booths with "bargains for sale," an attractive diversified program daily, a score of interesting villages—in fact all the essentials of a jolly carnival. That it will be a great success is not to be doubted, as the ladies in charge are well versed in this line of entertaining.
